Conference Centre

Thursday, October 25, 2018

1630-1830

## Pre-Conference Boot Camp Information and Descriptions

*\*Please note, the below Boot Camps will take place concurrently and registrants may only attend one workshop*

1630-1830	<p><b>Title:</b> PRP and Microneedling Boot Camp <b>**SESSION FULL**</b></p> <p><b>Speaker:</b> Yves Hébert, MD</p> <p>During this workshop, we will be reviewing PRP and Microneedling techniques and their applications in the aesthetic field.</p> <p>At the conclusion of this activity, participants will be able to use and recommend these techniques to their patients for a variety of current treatment indications.</p>
1630-1830	<p><b>Title:</b> Acne &amp; Rosacea Boot Camp</p> <p><b>Speaker:</b> Jaggi Rao, MD, FRCPC</p> <p>During this intensive 2-hour workshop, attendees will be updated on advances in the recognition, understanding and management of Acne &amp; Rosacea. We will learn about emerging therapeutic opportunities, and share in practical real-world clinical experiences that are relevant to all aesthetic medicine practitioners. Course director, board certified dermatologist and laser surgeon, Dr. Jaggi Rao, will personally comprehensively guide all learners through numerous clinical cases of Acne &amp; Rosacea. This rare opportunity will instill all participants with the confidence and competence in conquering these challenging conditions in a practical, efficient and effective manner.</p>
1630-1830	<p><b>Title:</b> Approach to safe, smooth and effective micro-cannula treatment Boot Camp</p> <p><b>Speaker:</b> Renier van Aardt, MD, (MB, ChB), CCFP</p> <p>Micro-cannula use has a number of advantages, including risk reduction, reduction of side effects and increased comfort. When using proper technique it, impacts patient satisfaction and practice success. This boot camp will address treatment areas, appropriate cannula selection, best approach and techniques for best outcomes.</p>
